	VM 680	30,5 kg 67,24 lbs
	130 x 63 x 110 cm 51 x 25 x 43 inch	

WARNING

- Misuse of this product may result in serious injury.
- Read user's manual and follow all warnings and operating instructions prior to use.
- Do not allow children on or around machine.
- Replace label if damaged, illegible, or removed.
- Keep hands, feet and hairs away from moving parts.

MAXI

130 kg / 287 lbs

This product, which complies with EN 957 class HC, GB17498 standard, is not designed for therapeutic use.

AVERTISSEMENT

- Tout usage impropre de ce produit risque de provoquer des blessures graves.
- Avant toute utilisation, veuillez lire attentivement le mode d'emploi et respectez l'ensemble des avertissements et instructions qu'il contient.
- Ne pas permettre aux enfants d'utiliser cette machine et les tenir éloignés de cette dernière.
- Si l'autocollant est endommagé, illisible ou manquant, il convient de le remplacer.
- Ne pas approcher vos mains, pieds et cheveux de toutes les pièces en mouvement.

AVISO

- Qualquer utilização imprópria deste produto comporta o risco de causar danos graves.
- Antes de cada utilização, leia atentamente as instruções de utilização e respeite o conjunto dos avisos e instruções incluídas.
- Mantenha este aparelho afastado das crianças e não permita a sua utilização por estas.
- Se o autocollant estiver danificado, ilegível ou ausente, é conveniente substituí-lo.
- Não aproxime as suas mãos, pés e cabelos de todas as peças em movimento.

UPOZORNENIE

- Akékoľvek nevhodné použitie tohto výrobku môže vyvolat väzne poranenia.
- Pred akýmkolvek použílím výrobku si starostlivo prečítajte návod na použitie a rešpektujte všetky upozornenia a pokyny, ktoré sú tu uvedené.
- Nedovolte deťom, aby tento prístroj používali a blízko sa k nemu.
- V prípade, že je samolepiaci štítek poškodený, necitelný alebo štítk chýba na výrobku, je potrebné ho vymeniť.
- Nepribližujte ruky, nohy a vlasy k súčiastkam, ktoré sa pohybujú.

ЗАСТЕРЕЖЕННЯ

- Всік не відповідне застосування виробу утворює ризик тяжких поранень.
- Перед застосуванням прочитайте інструкцію використання та дотримуйтесь усіх попереджень та порад, які вони містять.
- Не дозволяйте дітям користатися цим апаратом та не підлідускайте їх близко до нього.
- Якщо на клейка лента пошкоджена, нерозривна чи відсутнія, треба її замінити.
- Не наближайте руки, ноги та волосся до деталей, що рухаються.

ADVERTENCIA

- Cualquier uso impropio de este producto puede provocar heridas graves.
- Antes de cualquier utilización, lea atentamente el modo de empleo y respetar todas las advertencias e instrucciones que contiene.
- No permitir a los niños utilizar esta máquina en las piezas alejadas de la misma.
- Si faltase la pegatina, o si la misma estuviera dañada o ilegible, conviene sustituirla.
- No acercar sus manos, pies y cabello de todas las piezas en movimiento.

UWAGA

- Nieprawidłowe użytkowanie produktu może być przyczyną wypadków.
- Przeczytaj instrukcję obsługi i przestrzegaj wszystkich zaleceń i instrukcji.
- Nie zezwalaj dzieciom na zabawę na poblizu urządzenia.
- Wyjmij etykietę w przypadku uszkodzenia, nieczytelności lub ich braku.
- Nie zbliżaj rąk, nóg i włosów do elementów w ruchu.

UPOZORNĚNÍ

- Jakékoliv nevhodné použití tohto výrobku může způsobit vážná poranění.
- Před jakýmkoliv použitím výrobku si starostlivo pročtěte návod k použití a respektujte všechna upozornění a pokyny, která jsou zde uvedena.
- Zabraňte deťem, aby tento přístroj používaly a přiblížovaly se k němu.
- Jelikož je samolepicí štítek poškozen, nečitelný nebo na výrobku chybí, je nutné jej vyměnit.
- Nepribližujte ruky, nohy a vlasy k pohybujícím se součástkám.

WARNHINWEIS

- Jede unsachgemäße Benutzung dieses Produktes kann schwere Verletzungen zur Folge haben.
- Vor jedem Gebrauch bitte diese Gebrauchsweise aufmerksam lesen und alle darin enthaltenen Warnhinweise und Anweisungen befolgen.
- Kindern ist die Benutzung dieser Maschine zu untersagen und sie sind davon fernzuhalten.
- Ist der Aufkleber beschädigt, unleserlich oder nicht mehr vorhanden, muss er ersetzt werden.
- Ihre Hände, Füße und Haare von allen drehenden Teilen fernhalten.

FIGYELEMZETÉS

- A szerkezet helytelen használata súlyos sérülésekhez vezethet.
- Használat előtt olvassa el a felhasználói kézikönyvet és tartson be minden figyelemzettel, illetve használói útmutatót!
- Ne hagyja, hogy gyerekek a gépre vagy közelébe kerüljenek.
- Cserélje ki a címkét, ha sérült, olvashatatlan vagy hiányzik.
- Tartsa távol a kezét, labdát, a haját a mögöző alka wétrekztől

VARNING

- Felaktig användning av denna produkt riskerar att förorsaka allvarliga personskador.
- Läs noggra bruksanvisningarna innan du använder produkten och ta hänsyn till alla varningar och instruktioner som den innehåller.
- Låt inte barn använda denna maskin och håll den på avstånd från den.
- Om dekalen är skadad, oläslig eller saknas, måste den ersättas med en ny.
- Låt inte händerna, fötterna eller hården komma i näheten av vridliga delar.

ПРЕДУПРЕЖДЕНИЕ

- Всяк неправилно използване на този продукт може да доведе до сериозни травми.
- Преди да използвате продукта, моля прочетете внимателно начин на употреба и спазвайте всички предупреждения и инструкции, които той съдържа.
- Не позволявайте тази машина да бъде използвана от деца и ги държте на разстояние от нея.
- Ако самозалепваща лента е повредена, нечестива или липсва, тя трябва да бъде сменена.
- Не доближавайте ръцете, краката и косите си до движещите се части.

ПРЕДУПРЕЖДЕНИЕ:

- Bu ürünün herhangi bir yanlış kullanımları ağır yaralara yol açabilir.
- Her kullanmadan önce, kullanım yöntemini dikkatle okumanız ve içindeki tüm uyarı ve taliimatları uymazlık gerekir.
- Çocukları bu makineyi kullanmalarına izin vermeyin ve onları bu makineden uzak tutun.
- Yapıskan etiket zarar görmüş, okunaksız veya mercut değilse, yeni ile değiştirilmesi uygun olacaktır.
- Elleriniz, ayaklarınızı ve saçlarınızın hareket halindeki parçalarla yaklaştırmayın.

تحذير

- عدم استخدام هذا المنتج بشكل سليم قد يسبب في إصابة خطيرة.
- قبل الاستخدام احرص على قراءة دليل الاستخدام بعناية مع الاهتمام الخاص بجميع التحذيرات والتوجيهات التي يتضمنها.
- يمنع استخدامه من قبل الأطفال ويخطف بعيداً عنهم.
- يجب استبدال اللاصقة إذا تلفت أو قطعت.
- يمنع تقبيل الأجزاء المتحركة من جميع الأجزاء المتحركة.

注意

- 请勿以错误方式使用此产品，可能造成严重伤害。
- 使用前请阅读说明，并遵守其中的有关注意事项和操作规定。
- 不要让儿童使用本产品或在产品周围玩耍。
- 若标签受损、印刷模糊或无标签，则应更换标签。
- 使手、脚和头发远离运动的部位。

ENGLISH

This product is DIS compatible

You have chosen a piece of fitness equipment by DOMYOS. We thank you for your confidence in us. We have created the DOMYOS brand to provide a way for all athletes to stay in shape. This product has been designed by athletes for athletes. We would be pleased to receive your comments and suggestions concerning DOMYOS products. Therefore, your store team is ready to listen, as is the DOMYOS products design department. You can also find us at www.DOMYOS.com. We wish you successful training and hope that you will enjoy using this DOMYOS product.

PRESENTATION

This product is a new-generation fitness bicycle. Thanks to its specially-designed shape, this bike places you in an anatomical position. The ergonomic form of the handlebars makes it easy to find the ideal position for your hands. This product is equipped with a magnetic transmission system for optimal and smooth pedalling comfort. It is equipped with a modern electronic system that enables you to adjust the braking resistance and offers preset training programs. The stationary bicycle is an excellent means of cardiovascular exercise. Training on this apparatus will increase your cardiovascular capacity. This will help to improve your physical fitness and your endurance, and you will also burn calories (a necessary step in losing weight, in conjunction with a diet). The stationary bicycle will enable you to tone your legs and buttocks. Your calf muscles and lower abs are also used in the workout.

WARNING

Getting into shape must be done in a CONTROLLED manner. Before beginning any exercise program, consult your doctor. CThis is especially important for people aged over 35 or who have previously had health problems, and those who have not done any sport for a number of years. Read all instructions before use.

SAFETY

To reduce the risk of serious injury, please read the following important user precautions before using the product.

1. Read all the instructions in this manual before using the product.
2. Only use this product in the manner described in this manual.
3. Keep this manual for the entire life of the product
4. This device complies with European, American and Chinese standards pertaining to fitness products for domestic, non-therapeutic purposes (EN-957-1 and 5 class HC / GB17498 / ASTM F 1250).
5. This piece of equipment must be assembled by an adult.
6. The owner is responsible for ensuring that all users of this product are properly informed as to how to use this product safely.
7. DOMYOS cannot be held liable for claims of injury or damage sustained by any person or property originating from the use or misuse of this product by the purchaser or by any other person.
8. This product is intended for domestic use only.
9. Do not use this product in a commercial, rental, or institutional setting.
10. Use the product indoors on a flat surface in a dry, dust-free uncluttered place.
11. Ensure that you have enough space to access and move around the device safely.
12. Protect the floor under the product by covering it.
13. It is the user's responsibility to inspect and if necessary tighten all parts before using the product.
14. If your product deteriorates, do not use it any longer and take it to your Decathlon store.
15. Do not store this product in a damp place (e.g. edge of a pool, bathroom etc.)
16. Wear athletic shoes to protect your feet while exercising.
17. DO NOT wear loose or baggy clothing, since it may get caught in the machine.
18. Take off all jewellery.
19. Put your hair up so that it does not get in the way during exercise.
20. If you feel any pain or if you become dizzy while exercising, stop immediately, rest, and consult a physician.

ENGLISH

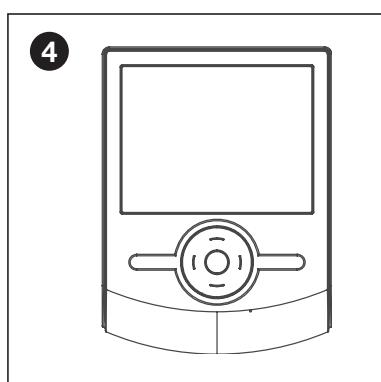

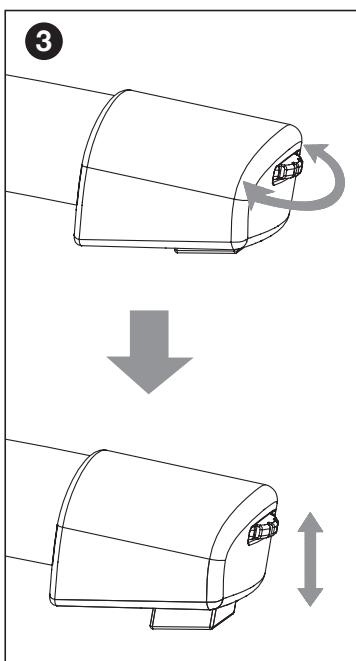

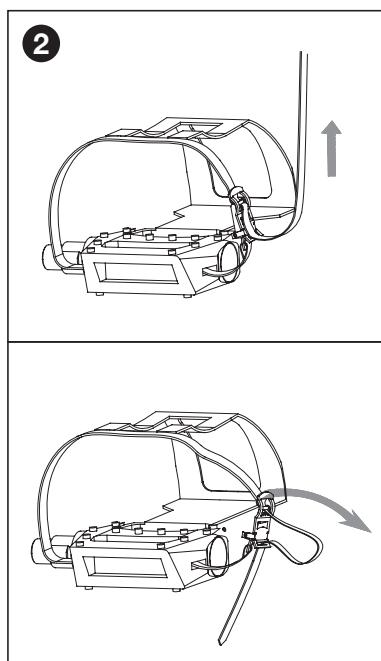

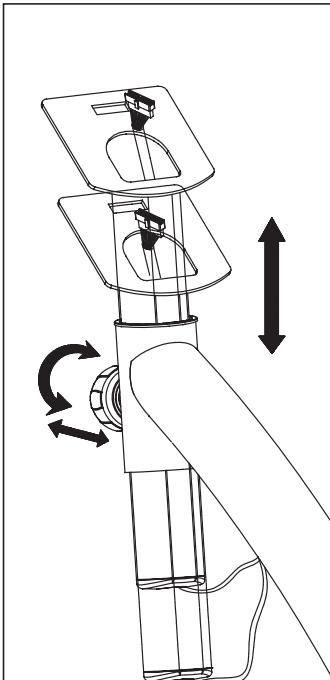

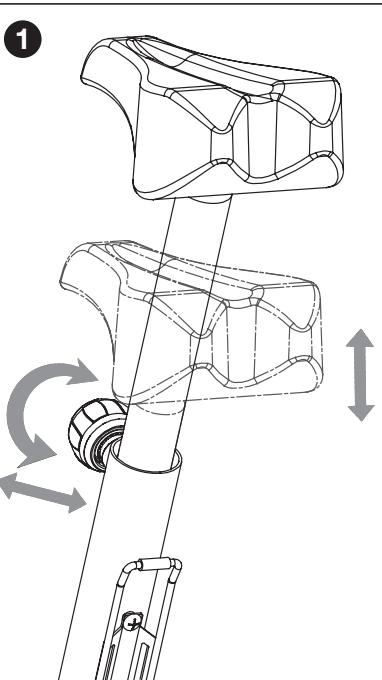

SAFETY

21. Keep children and pets away from the product at all times.
22. Keep your hands and feet away from moving parts.
23. Do not exceed the limits of the adjusting mechanisms.
24. Do not modify your product.
25. When exercising, do not arch your back: keep it straight.
26. There are many factors that may affect the precision of the readout from the pulse sensor; it is not a medical device.
27. It is designed merely to help you determine your approximate heart rate.
28. People wearing a pace maker, a defibrillator, or any other electronic implant are advised that they use the pulse sensor at their own risk.
29. Before the first use, a test exercise under the supervision of a doctor is thus recommended.
30. Pregnant women are advised not to use the pulse sensor.
31. Before any use consult your doctor.
32. Always hold the handlebars while climbing onto or off the product.
33. Any assembly or disassembly of the product should be carried out with care.
34. As you finish your workout, gradually reduce your pedalling speed until the pedals come to a complete stop.
35. Maximum user weight: 130kg – 287lbs.
36. Only one person may use the product to exercise at any one time.
37. Clean with a damp sponge.
38. Rinse well and dry.

ENGLISH

ADJUSTMENTS

WARNING : you must get off the bicycle to make any adjustments (seat, handlebars).

1 HOW TO ADJUST THE POSITION OF THE SEAT AND THE HANDLEBARS ?

For an effective workout, the seat and handlebars must be adjusted properly.

While you are pedalling, your knees should be slightly bent when the pedals are in the lowest position.

Adjust the seat to the right height, as indicated in the reference table below, reinsert the knob in the seat post and tighten it all the way.

Next, repeat the same operation for the handlebars.

To find the position corresponding to your height, please refer to the table below titled: «Adjusting the Handlebars»:

Stature en cm	Adjusting the seat
0 < 155	0
155 à 160	1
161 à 164	2
165 à 169	3
170 à 173	4
174 à 177	5
178 à 181	6
182 à 186	7
187 à 195	8
> 195	9

IMPORTANT:

Make sure you put the knob back into place in the seat/handlebar post and tighten it completely. Never exceed the maximum seat height.

Height in cm	Adjusting the handlebars
155 à 160	1
161 à 166	2
167 à 172	3
173 à 178	4
179 à 184	5
185 à 190	6
191 à 195	7

IMPORTANT:

Never exceed the maximum seat height.

2 HOW TO ADJUST THE PEDAL STRAPS ?

The new-generation toe clips are easy to use and require no adjustment.

3 LEVELLING THE BICYCLE

In the event that the bicycle becomes unstable during use, turn one of the plastic end knobs (15-2) on the rear support leg (15-1) or both, until the bicycle is stable.

4 ADJUSTING THE RESISTANCE:

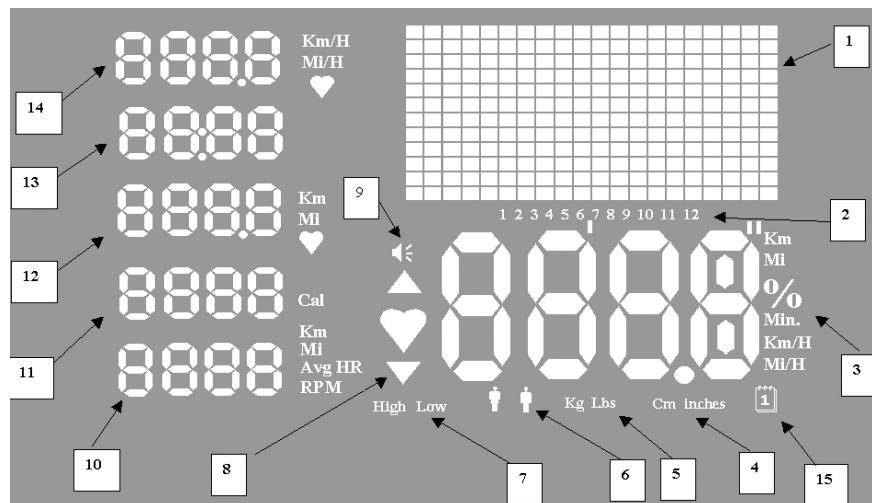

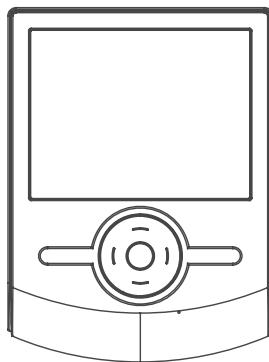

According to the EN (European Norm) definition, this product is an item of "pedal crank training equipment". You can adjust the braking torque not only with your pedalling speed but also by manually choosing your resistance level (by turning the torque control knob on non-motorised products and by pressing the +/- buttons on motorised products).

However, if you retain the same level of resistance, the braking torque will increase/decrease as your pedalling speed increases and decreases.

ENGLISH

FC600 CONSOLE

DISPLAY

1. Programme display zone – MAIN SCREEN
2. Indication of programme selection
3. Display of SPEED, DISTANCE, or HEART RATE, according to the display choice made by the user.*
4. Indicator not used on the FC600
5. Indicator not used on the FC600
6. SEX selection indicator (Male/Female)
7. Indicator for target heart rate setting :
HIGH (100% of max. value)
LOW. (70% of max. value)
8. Display of the output for target heart rate zone.
9. Indicator for activation of sound warning for target heart rate zone output.
10. Display of DISTANCE covered

11. Estimation of CALORIES expended (Cal)
12. Display of DISTANCE or HEART RATE, according to the display choice selected by the user on the main screen.
13. Display of countdown; default setting is 20 minutes (duration can be set at between 10 and 180 minutes, in intervals of 5 minutes).
 - a. If time remaining is over 1h → Display HH : MM
 - b. If time remaining is under 1h → Display MM : SS
- If you do not pedal for more than 5 seconds, the countdown timer and the CALORIE counter both stop.
- The countdown and the CALORIE counter restart as soon as pedalling recommences.
14. Display of SPEED or HEART RATE, according to the display choice selected by the user on the main screen.
15. Indictor of selection of user's AGE.

* The user can change the display during exercise by pressing button B or D.

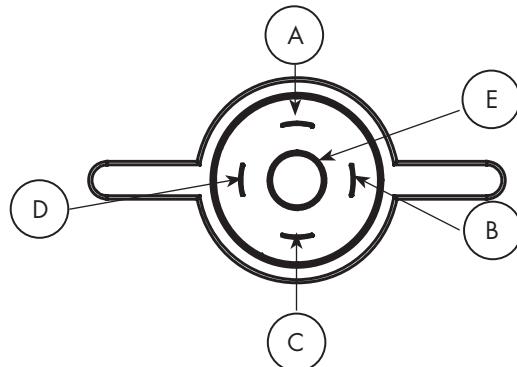

Resetting the product :

The product goes into standby mode after about 10 minutes of inactivity. The indicators are reset to 0 when the product goes into standby mode (the data is not saved). The counter is activated as soon as the pedals start turning or if one of the buttons is pressed.

BUTTON FUNCTIONS

The navigation system for your FC600 console consists of:

- a central adjustment and confirmation button (E)
- two buttons enabling you to navigate the screens (B and D)
- two value adjustment buttons (A and C)

ENGLISH

FUNCTIONS

Speed: This function indicates estimated speed, either in km/h or mph, depending on the position of the switch at the rear of the product (see diagram).

Distance: This function indicates estimated distance since the beginning of the exercise session.

This can be displayed in km (kilometres) or M (miles) depending on the position of the switch on the rear of the product.

Time: This function indicates how much time has elapsed since the beginning of the session; this indication is in Minutes : Seconds (MM : SS) for the first hour, then it switches to Hours: Minutes (HH : MM)

Calories: This function displays an estimation of calories expended since the beginning of the exercise session.

Heart rate*: Your heart rate is measured by the pulse sensors on the handlebars. Your heart rate is displayed in beats per minute.

***Please note:** This figure is only an estimate and it should under no circumstances be considered medically reliable.

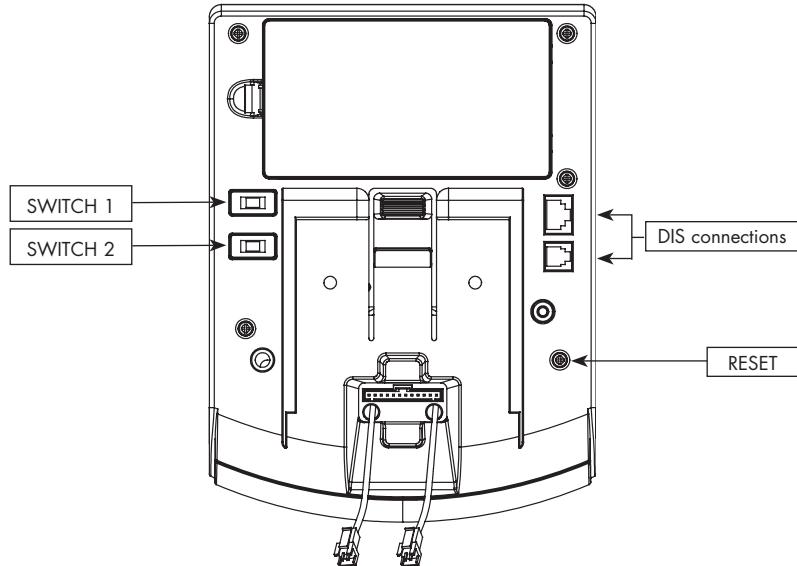

***Please note:** For a period of around 30-40 seconds, or when there is a sudden change in heart rate, the value displayed may not correspond to your actual heart rate. This is due to the mechanism starting up.

***Please note:** A strong magnetic field may cause the number of heartbeats counted to be affected.

SETTINGS BEHIND THE CONSOLE

Switch 1: Selection of type of apparatus that you are using with the console: VM (magnetic bike) — VE (elliptical bike)

Switch 2: Selection of unit of measurement for DISTANCE.
MI (Miles) — KM (Kilometres)

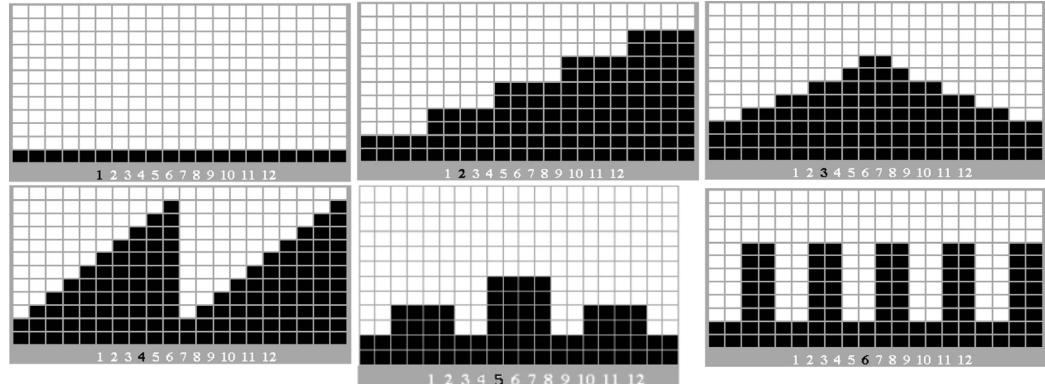

PROGRAMMES

Reminder: holding down button E stops the current programme.
You can scroll through the programmes by pressing buttons B and D. Select them using button E.

Programmes 1 to 6

Select your exercise time with buttons A and C, and confirm with button E. Once the programme has started, you can increase the intensity of the exercise with buttons A and C.

ENGLISH

SETTING

To enter setting mode, hold down button E when the screen displays the word SEL.

If you have not started your exercise, holding down E will take you directly to setting mode.

If you were in the middle of a training session, holding down E will halt the current programme. The word STOP will be displayed on the main screen for 15 seconds. During this time you will see the data from your last training session displayed on the screen. The screen will then display the word SEL. Hold down E again to go to setting mode.

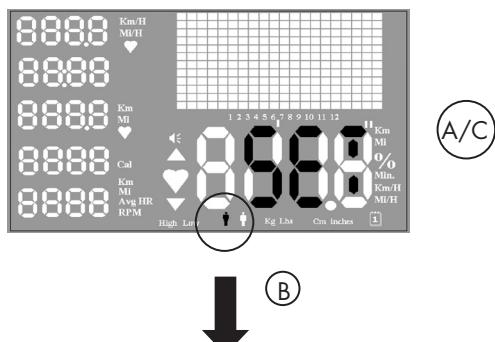

In setting mode, you can enter your SEX, AGE and WEIGHT. The device then offers you a target heart rate zone, which, by default, is a maximum of

100% of the recommended heart rate and a minimum 70% of this maximal value. You can alter these 2 values using buttons A and C.

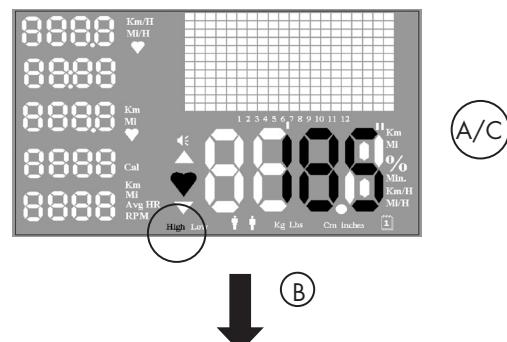

You can increase or decrease these values by pressing buttons A and C. Pressing continuously on the buttons allows you to scroll through the values more quickly.

Button B allows you to confirm your selection and move on to the next setting. If you make a mistake, you can use button D to take you back to the previous screens.

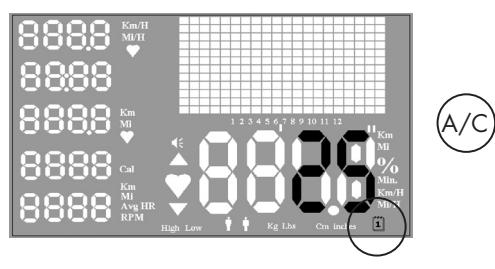

Setting your Sex (Male/Female)

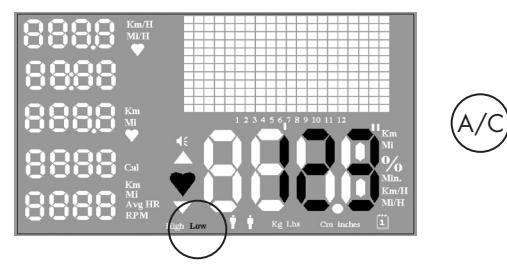

Max target heart rate

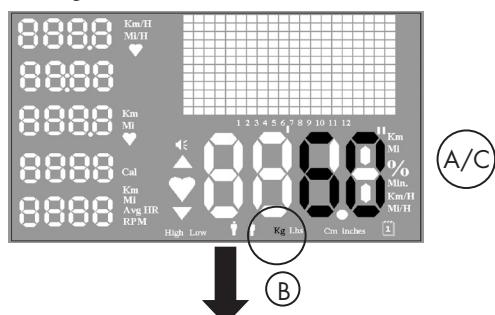

Setting your age

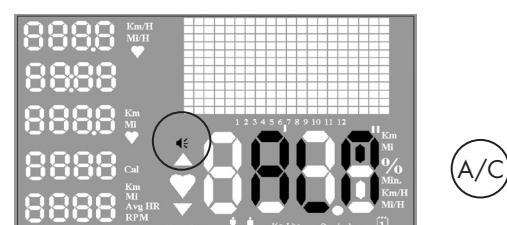

Min target heart rate

Setting your weight

Activating/deactivating the alarm warning you that you are exiting your target heart rate zone.

USE

The console is mains and / or battery operated.

The console switches off after 10 minutes of inactivity.

We advise you to remove the batteries if you are not going to use your console for a long time or if you regularly use it connected to the mains.

ENGLISH

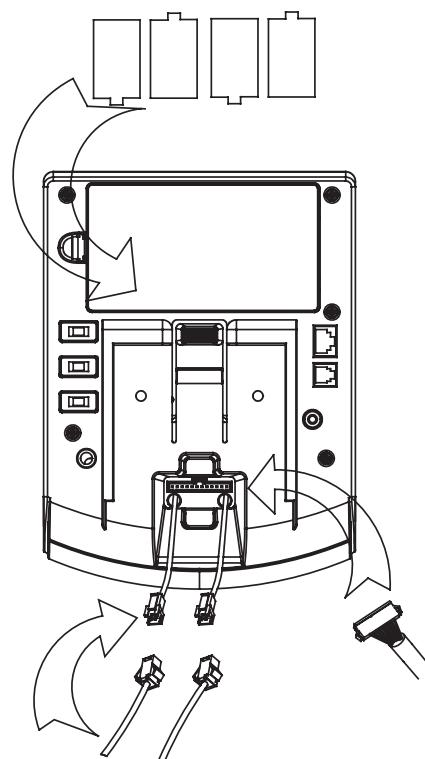

BATTERY INSTALLATION

1. Lift the console out of its support, remove the battery cover located at the back of the product, and place four LR14 (1.5 V) batteries in the battery compartment behind the screen.
2. Make sure the batteries are installed correctly and are flush with the springs.
3. Put the battery compartment lid back on and check to ensure that it is secure.
4. If the display is illegible or incomplete, remove the batteries, wait 15 seconds and then put them back in.
5. If you remove the batteries, the computer memory is erased.

RECYCLING :

The "crossed-out bin" symbol indicates that this product and the batteries it contains cannot be disposed of with household waste. They are subject to specific sorting. Take the batteries and your unusable electronic product to an authorised collection area for recycling. Recycling your electronic waste will protect the environment and your health.

TROUBLESHOOTING

- If you note abnormal distances or speeds, check that the switch behind the console is in the VM position for magnetic bikes and VE for elliptical bikes. Press the RESET button so that the change takes effect.
- On magnetic bikes each turn of the pedals corresponds to a distance of 4 metres, and on elliptical bikes 1 movements corresponds to a distance of 1.6 metres. (These values correspond to average distances on a bike or walking.)
- If the heart rate indicator (3,12,14) is not flashing or is flashing erratically, check that your hands are positioned properly and that the sensors are not too moist.
- If you note that the counter does not display the correct units of distance, check that the switch behind the console is in the Mi position to display in miles, or in the Km position to display in kilometres. Press the RESET button so that the change takes effect.

If the counter does not turn on :

- If you are using the battery: check that the batteries have been placed in the correct +/- position.
- If the problem persists, start again with new batteries.
- If the bicycle is connected to the mains: check that the adaptor is correctly connected to the bicycle.
- In both cases, check that the cables are correctly connected behind the console and where the stem set joins the main frame of the bicycle.

If the problem persists: Bring the product back to the nearest DECATHLON store.

If a noise emanates from inside the casing or you cannot adjust your intensity level when in manual mode, do not try to repair it. Bring the product back to the nearest DECATHLON store.

Only use the product with the adaptor supplied.

ENGLISH

CARDIO-TRAINING

Cardio training is aerobic exercise (muscle development using oxygen); it enables you to improve your cardiovascular capacity.

More specifically, you improve the tone of your heart muscle and blood vessels.

Cardiovascular training takes oxygen from the air you breathe into your muscles.

The heart pumps this oxygen throughout the entire body, and especially to the muscles that are doing the work.

CONTROL YOUR PULSE RATE

Taking your pulse regularly while exercising is essential for controlling your training.

If you don't have an electronic measuring instrument, this is how you do it :

To take your pulse, place 2 fingers over :
your neck, beneath the ear, or inside the wrist next to the thumb
Don't press too hard :

Pressing too hard lessens the blood flow and can slow down the heart rhythm.

After counting the beats for 30 seconds, multiply by 2 to get the number of beats per minute.

Example :

A count of 75 beats gives 150 beats/minute

PHASES OF PHYSICAL ACTIVITY

A - Warm-up phase: progressive effort

The warm-up is the preparatory phase for exercise and gets your body COMPLETELY READY to start working out.

It is a way to PREVENT INJURIES TO TENDONS AND MUSCLES.

It involves two stages:

WAKING UP THE MUSCULAR SYSTEM, AND OVERALL WARM-UP.

- 1) You wake up your muscles with a SERIES OF SPECIFIC STRETCHES that PREPARE YOU FOR EXERCISE: every muscle group is used, and the joints are stimulated.
- 2) The overall warm-up makes it possible to put the cardio-vascular and respiratory system into action gradually, for a better blood supply to the muscles and better preparation for the exercise. It should be long enough: 10 minutes for a recreational sport, and 20 minutes for a competitive sport. Note that you should warm up for longer: in the morning and if you are over 55.

B - Training

The workout is the main phase of your physical activity.

By working out on a REGULAR basis, you can improve your physical fitness.

- Anaerobic work for improving endurance.
- Aerobic work for improving cardio-pulmonary strength.

C - Warming down

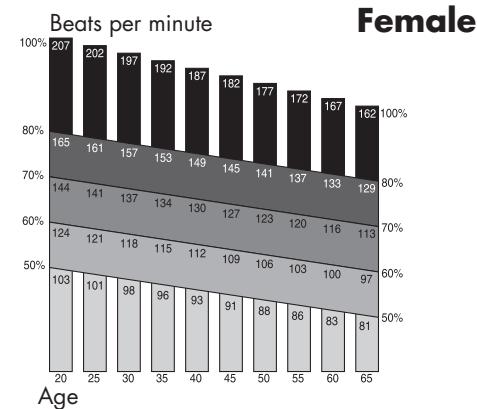

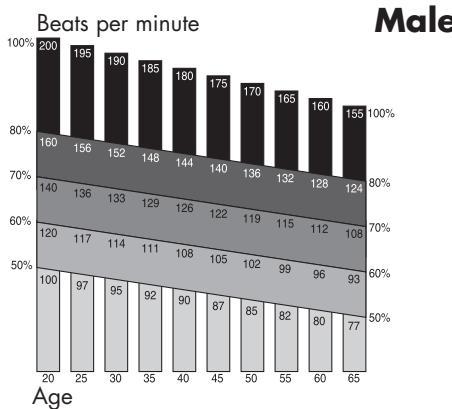

This corresponds to low-level activity; it is the gradual "resting" phase. WARMING DOWN returns your cardiovascular, respiratory and circulatory systems and your muscles to normal functioning (thereby preventing undesirable side effects such as the build-up of lactic acid, which is one of the major causes of muscle pain namely, cramps and stiffness).

D - Stretching

You should stretch after warming down. Stretching after exercise: Minimises MUSCULAR STIFFNESS caused by the build-up of.

CARDIOVASCULAR TRAINING: EXERCISE ZONE

- Training at 80 to 90% and over of maximum heart rate: Anaerobic and red zones reserved for competitive, specialist athletes.
- Training at 70 to 80% of maximum heart rate: Endurance training.
- Training at 60 to 70% of maximum heart rate: Getting fit/Burning off fat.
- Training at 50 to 60% of maximum heart rate: Staying in shape/Warm-up.

If your age differs from those given in the table, you can use the following formulae to calculate your maximum heart rate which corresponds to 100%.

For men: 220 - age

For women: 227 - age

ENGLISH

USE

If you are just starting out, begin by exercising for several days at a low resistance and speed, without forcing it, taking breaks if necessary. Gradually increase the number or duration of the sessions.

Maintenance/Warm-up: Gradual effort starting with 10 minutes.

For maintenance work to keep yourself in shape or get back into shape, you can train every day for about ten minutes.

This type of exercise will wake up your muscles and joints, or it can be used as a warm-up before another type of physical activity.

To increase muscle tone in the legs, choose a greater resistance and increase the duration of the exercise.

Obviously, you can vary the pedalling resistance over the course of your workout.

Aerobic exercise for getting into shape: Moderate effort for a relatively long time (35 minutes to 1 hour).

If you wish to lose weight, this type of exercise, combined with a diet, is the only way to increase the amount of energy your body consumes. To do so, there is no need to push yourself beyond these limits. Training on a regular basis is what will produce the best results.

Choose a relatively low pedalling resistance and do the exercise at your own pace, but for at least 30 minutes.

This exercise should cause you to build up a mild sweat, but it certainly should not leave you out of breath.

It is the duration of the exercise at a slow pace that will cause your body to dip into your fat reserves to get its energy, as long as you pedal for more than about thirty minutes at least three times a week.

Aerobic training for endurance: Sustained effort for 20 to 40 minutes.

This type of training aims to strengthen the heart muscles significantly and improve respiration. Pedalling resistance and/or speed is increased in order to increase breathing speed during the workout session.

This type of exercise is more sustained than when you are working out to get into shape. Little by little, as you train, you will be able to work out for longer, at a faster pace or with a higher resistance.

You can do this type of workout at least three times a week.

After each workout, set aside several minutes to pedal at a lower speed and resistance, to slow down and gradually relax your body.

WARRANTY

DECATHLON guarantees the materials and workmanship of this product under normal conditions of use for 5 years for the structure and 2 years for parts subject to wear and tear and for workmanship, starting at the date of purchase as indicated by the date on the till receipt.

DECATHLON'S obligation with regard to this guarantee is limited to the replacement or repair of the product, at the discretion of DECATHLON.

All products for which the warranty is applicable must be received by DECATHLON at one of its approved facilities, delivery prepaid, accompanied by adequate proof of purchase.

This warranty does not apply to cases of:

- Damage caused during transport
- Improper or abnormal use
