

SUBEA

INSTRUCTIONS FOR USE: To be kept for reference. This is a technical drawing of a garment. It includes a list of symbols for different parts and materials, such as "Plyometrics", "Terry", and "Micro".

MEASUREMENTS: A list of key measurements for the garment, including chest, length, and sleeve length. It provides values for different sizes and includes a note about how to take these measurements.

CONSTRUCTION: A detailed list of construction instructions for the garment, covering various parts like the collar, cuffs, and body panels. It includes symbols for different types of stitching and finishes.

FINISHING: A list of finishing instructions, including details about hemming, pressing, and quality control checks. It also includes a list of symbols for different types of finishes and treatments.

SIZE CHART: A table providing body measurements for different sizes. It includes columns for chest, length, and sleeve length, and rows for various size categories.

PRINTING INFORMATION: Information about the printing process, including color specifications and a list of printing options.

CMYK PROCESS COLORS: A color calibration chart showing various CMYK color patches.

ILLUMINANT SOURCE: Information about the illuminant source used for the color calibration, including the color temperature and filter.

FINISHING: A table with checkboxes for different finishing options, such as "Acrylic Varnish", "UV Varnish", "Matt", and "Shiny".

CAPTION: A legend for the symbols used in the technical drawing, including cutting lines, creases, and perforations.

FILE ORIENTATION: A diagram showing the correct orientation of the file for printing.
